

International Tuberculosis Conference, Paris, France 1888

Newspaper article announcing the declaration of the conference at Paris, France

The News and Courier – August 7, 1888

THE MECCA OF THE DYING

CONSUMPTIVES, OF THE WORLD OVER, MUST GO TO SUMMERVILLE

That was Said at the International Tuberculosis Conference at Paris -

Only Two Places in the World that Offer Relief or Cure to Consumptives, and One of those Places is Summerville, South Carolina - Florida Worse than Useless

WHERE THE PATIENTS SHOULD GO

“Do not send him to Florida, where damp fogs are pretty sure to do serious harm. Choose rather among low, dry altitudes in a pine wood region, where the air is charged with derivatives of turpentine. I refer to such places as Thomasville, Ga. And

Summerville, SC.”

Dr. R. C. M. Page, Prof., Diseases of the Chest

New York Polyclinic
